

ELTETE

TRANSPORT PACKAGING SOLUTIONS

Edgeboard

Protection, stability and stacking strength

Sustainable packaging is your contribution to the environment

Recycling; Your contribution

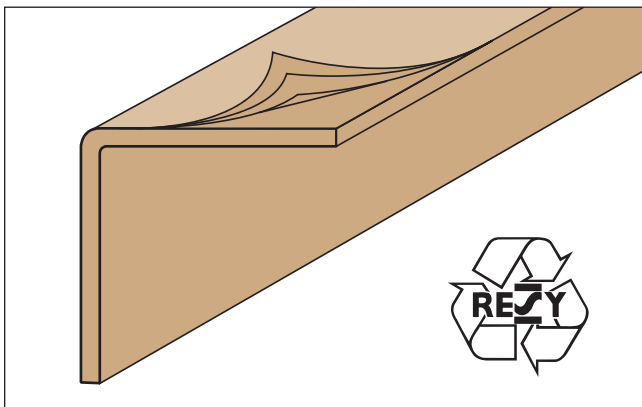

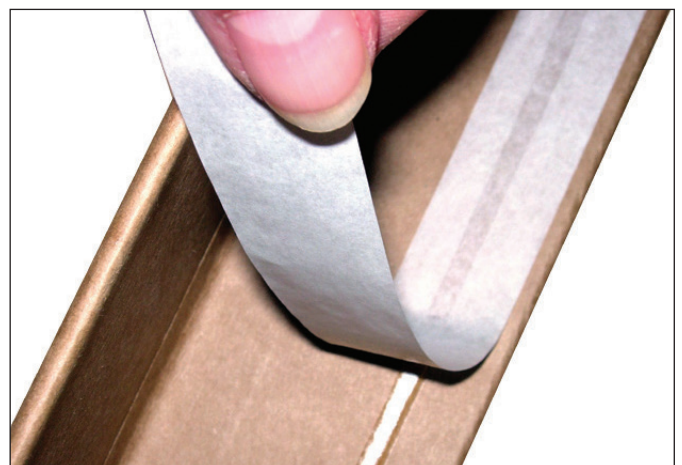

EDGEBOARD IS AN EXCELLENT PRODUCT BECAUSE

- It's cheap, recyclable,

Damage caused during transport and handling is a problem for manufacturers and distributors. This is why a number of producers and packaging experts have chosen compact edge protection as a solution.

Eltete can offer a complete system to solve your packaging problems. Edgeboards, U-profiles, Flatboards, Carton Board Pallets, PallRuns® and Slip Sheets in combination with stretch foil, shrink wrap and strapping guarantee that you will find an optimal solution for every product.

In this way Eltete has profiled its concept, which we and our partners would like to share with all our customers.

Raw Material. The standard edgeboard is manufactured by laminating several layers of strong paperboard.

ECONOMY AND COST SAVINGS

By using edgeboard, we aim to offer the customer a measurable advantage.

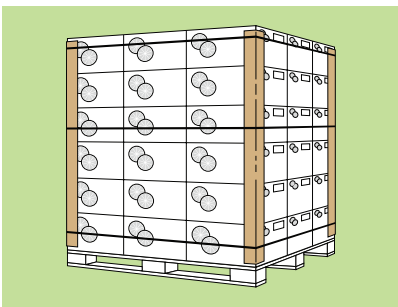

Our packaging solution with edgeboard

- replaces expensive packaging material
- saves work and material
- is environmentally friendly
- can be sent all over the world without any need of extra treatment, such as the fumigation required for wooden material
- allows you to optimise your transport space by double- stacking
- strengthens your package and minimizes transport damage

tion to the Environment

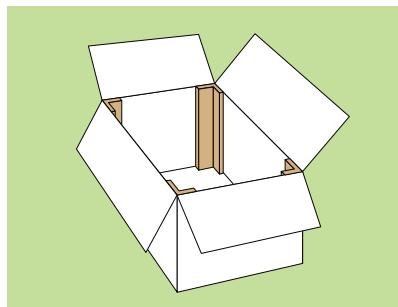

BECAUSE OF ITS FLEXIBILITY IN PACKAGING.
easy to use yet strong -

VERTICAL PROTECTION

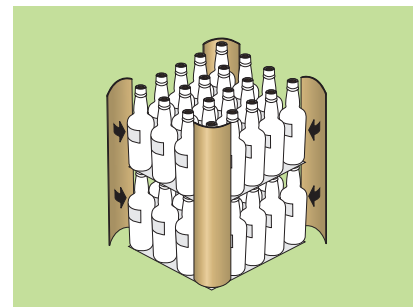

Edgeboards stabilise the pallets and provide protection during transport and warehousing.

STRENGTHENING PACKAGING UNITS

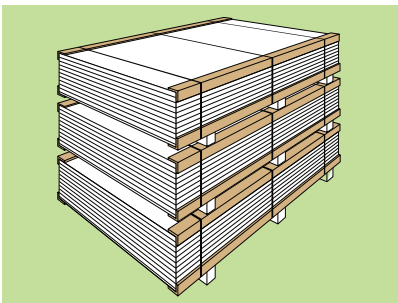

The strength of a single package can be improved by reinforcing boxes internally with edgeboards.

ROUND C-PROFILES

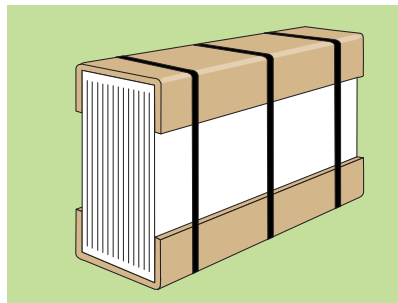

Use C-profiles for round corners.

PROTECTION OF EDGES

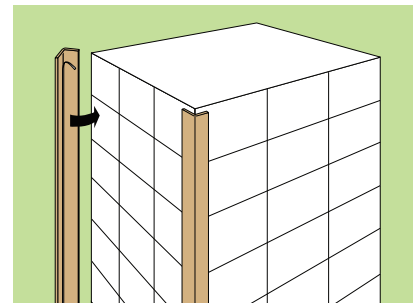

Edgeboards protect and support products during all handling operations.

U-PROFILE

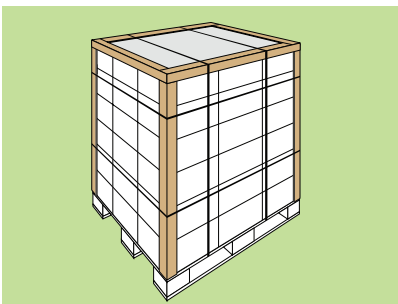

U-profiles are manufactured precisely to meet customer needs.

SELF-ADHESIVE

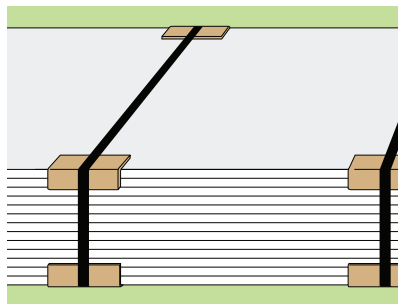

The use of self-adhesive edgeboard improves handling before final strapping is applied.

STACKING STRENGTH

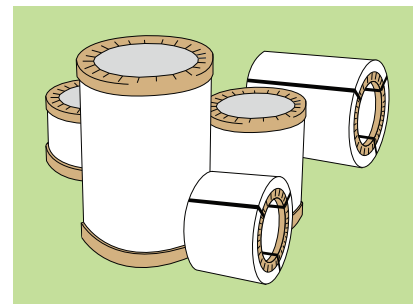

Choosing the right edgeboards for strengthening units will enable you to optimise space by doublestacking.

STRAPPING PROTECTION

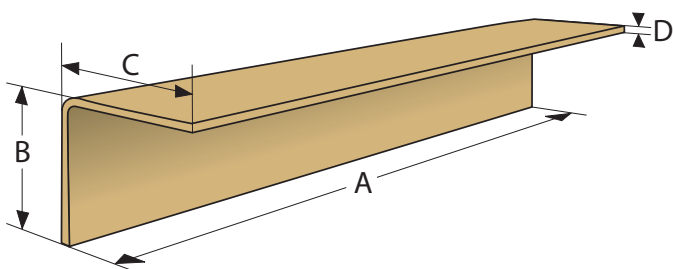

Protecting the product against strapping damage.

WRAP-AROUND EDGEBOARD

The flexible wrap-around edgeboard is easy to use for inside or outside protection.

EDGEBOARD SIZES

QUALITIES

Edgeboard can be delivered either in Bio- or Heat-sealed quality. A variety of surfaces are available in brown, white or colour.

COLD LAMINATION (BIO)

Laminated with a water-soluble glue under high pressure. The selected raw materials are all of high quality and 100% recyclable. Ask for more information about humisafe qualities.

HEAT SEALING (HS)

An excellent protection against moisture and dampness. Made of high quality carton board which is hot laminated at high pressure to form a profile element, that offers superb stability even when there are major fluctuations in moisture levels. Environmentally-friendly and recyclable.

OPTIONS

- Self-adhesive Add & Stick edgeboards
- Wrap-around edgeboards for round objects
- C-profiles
- Edgeboards with soft foam

Ask for more information.

STANDARD SIZES

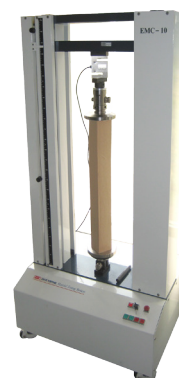

A mm	B mm	C mm	D mm
50-6000	35	35	BIO 2-6 HS 1-6
	40	40	
	45	45	BIO 2-8 HS 1-8
	50	50	
	60	60	
	80	80	
	100	100	

PRINTING

Company names, logos and advertisements can easily be printed during the manufacturing process.

STRENGTH

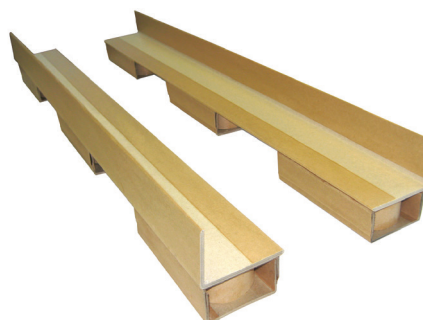

To find the right product for your purposes, we can test the strapping strength, compression, bending, tear resistance or tensile strength.

NEW POSSIBILITIES

EdgeRunner®

A combination of edgeboards and PallRuns®, is a new 4-way pallet alternative. It will optimise the space need; you will load more and get all the benefits of a strong sustainable packaging.

Eltete TPM Ltd (Transport Packaging Materials) is a global carton board converter and an ISO-certified supplier of 100% recyclable transport packaging materials. With our own engineering division we are able to react quickly to customer demands.

With experience since 1974, we are experts in the needs of today's market. Innovative and high-quality packaging solutions made of compact carton board are being offered in more than 60 countries through Eltete sales organization. With 20 production sites in 14 countries we are close to our customers.

Eltete TPM is one of the leading producers of sustainable transport packaging materials and solutions in the world.
