

TRANSPORT PACKAGING SOLUTIONS

PallRun®

Environmentally-friendly, cost-effective and versatile

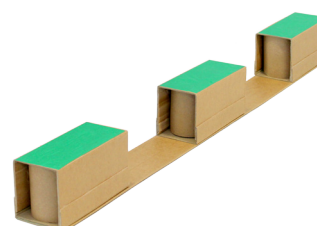

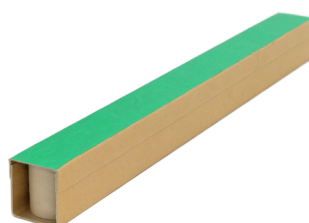

Protected design RCD 000096102-005

**One product,
many solutions!**

- Strong solid board structure
- Lightweight and resistant to humidity
- Excellent self-adhesive option
- ISPM 15-compliant
- Different height options

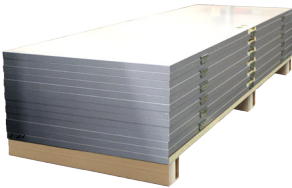

Sustainable packaging is your contribution to the environment

PallRun® is a transport packaging element from Eltete TPM Ltd. It is a 100% recyclable carton board pallet foot for replacing wooden or other kinds of palletterunners/pallets. It is a combination of compact cartonboard (U-profiles) and stabilisation elements (cores). The PallRun® can also be provided with a self-adhesive surface for easier fastening.

| SAVINGS | EASY HANDLING | HYGIENIC AND RECYCLABLE |
|--|--|---|
| <ul style="list-style-type: none"> • minimum space required • light in weight – huge savings in air freight! • material and handling cost can be reduced • recycling costs are reduced | <ul style="list-style-type: none"> • it is possible to make any size of a pallet or directly attach the PallRuns® under a box or display • contains no nails and produces no splinters – is very user-friendly • PallRuns® are strong and resistant to humidity | <ul style="list-style-type: none"> • 100% recyclable carton board • recycling together with any carton material • “green thinking” provides a good company image • needs no treatment or markings like wood |

It is possible to use the PallRuns® in many different ways wherever there is a need for palletising in a modern way. Its unique structure and the raw material used give excellent water resistance and strength to support heavy loads.

Remove the silicone paper and attach directly to:
